And Australia and South America too!

A Unique Perspective

Operations are expanding to many locations across the world,
giving us a unique perspective on the global economy
as we play an increasingly important role in driving it.

International Presence

Our growing international presence and commitment to our core business has helped us pave the way to unlimited opportunities for a bright and prosperous future.

All We Need Is You!

We believe that our success is due to our highly skilled
and committed Certified Applicator Specialist
and the work that they produce.

Let's Join Together...

To explore your world as a
CerarMix Certified Applicator Specialist
AND work together to get you ready!

What's a Certified Applicator Specialist?

To Be Specific...

Certified Applicator Specialists (CAS) specialize in applying CerarMix, a metallic ceramic polymer industrial, structural coating using proprietary and patented CerarSpray equipment.

New NanoTechnology

CerarMix is a NEW technology in industrial coatings.

CerarMix Anywhere, Anytime

CAS apply CerarMix to:

- Infrastructure such as steel bridges to fight corrosion
- Interior and exterior facilities such as roofs, flooring
- Equipment such as storage tanks, rolling stock, plant buildings, lockers, piping
- Structural steel
- Marine vessels

Field Experts

ACTS CSI Certified Applicator Specialist Network encompasses a select group of exceptional coating applicators whose facilities and processes are quality-audited to help deliver the highest possible level of CerarMix quality, customer service and technical expertise.

CerarSpray Advantage

CerarSpray is a game-changer in the world of industrial coating.

- Saves time and increases profits - up to 1500 sq.ft. per hour per gun.
- Very fast cure rates
- Downtime is substantially reduced as CerarSpray replacement parts are made of CerarMix and last indefinitely.

Are You Qualified to be
a
Certified Applicator
Specialist?

If your Answer is Yes...

Let's explore what it takes to become
an ACTS CSI Certified Applicator Specialist
